Frosty the Snowman

3rd Grade:

Look at the red buttons on the snowman’s belly. Frosty claims he needs 10 red buttons to make 7 snowmen to match the snowman in the image. Do you agree or disagree with Frosty’s claim? Use words and numbers to support your decision.

4th Grade:

Frosty’s scarf is $3\frac{1}{2}$ ft long. The material to make the scarf cost \$4 per foot. What is the cost to make scarfs for 10 snowmen? Use words and numbers to support your answer.

5th Grade:

Sophie makes these snowmen as ornaments and sells them at craft fairs. It cost Sophie \$2.50 to make each snowman ornament and she sells each one for \$6.00. What is her profit from selling 20 snowman ornaments? Use words and numbers to support your answer.
